The Look

When renovating your bathroom it can be really difficult to decide on your design scheme and pick fittings that complement your chosen interior trend.

To help, Methven has put together this handy inspirational guide which will take you through key current looks, including the industrial revolution, bright and bold and monochrome.

Methven showers and taps aren't just beautiful in their design but they are also ahead of the rest in terms of the innovation. When I use a Methven product, it feels like a different quality experience and what is really clever is the technology that goes on inside of the products.

The team of Methven engineers are consistently challenging ideas and pushing for new technologies. This explains why the brand has just achieved its third shower spray patent for their new product Tūroa. Take a look at page 3 to find out more about this stunning collection!

So, sit back, relax and let us talk you through Methven's range of showers, taps and accessories to help you create the dream bathroom.

Our Technologies

At Methven, we pride ourselves on researching and developing the finest showers, taps and bathroom accessories. With over 130 years' of experience in design and manufacture, we have learned a thing or two about water.

Simply put, we make showering better.

METHVEN VJet™

A shower experience that puts you in control.

▲ **FIRM SPRAY**

Our patented VJet technology puts you in control. Choose from an invigorating post-workout blast, to a relaxing gentle mist spray when it's time to unwind.

▼ **GENTLE SPRAY**

and everything in between

METHVEN Aurajet™

An immersive shower experience.

Aurajet technology brings a full-bodied spray with maximum coverage. Our innovative Aurajet technology delivers 20% more spray force and twice the amount of skin contact* compared to a traditional shower, whilst using less water.

20%
 more spray force*

2X
 the amount of skin contact*

METHVEN Satinjet®

The unmistakable feeling of 300,000 droplets per second.

Unlike conventional showers, Satinjet uses unique twin-jet technology to create optimum water droplet size and pressure. It produces over 300,000 droplets per second to provide greater warmth and coverage.

* Compared to a Methven Conventional Shower. Flow rate of both products at 9L per minute and tested as per AS 3662-2013 Appendix H.

Aurajet®

Chrome has been a firm favourite for many years, but the latest trend to make a big impact in bathroom interiors is matte black. A black shower combined with neutral tiles creates a sleek, modern look.

The award-winning Aio collection, which features a unique halo design, is available in matte black for those who dare to create a bold dramatic statement.

To keep the geometric flow running through your bathroom opt for the Kiri concealed mixer valve, which is perfect for lovers of clean lines and strong, dynamic forms. The thermostatic control allows you to maintain the ideal temperature setting, whilst the default safety setting prevents scalding but can be adjusted when necessary.

In a commitment to protecting the environment, the water flow rate of the Rua collection has been optimised to 7.5 litres per minute, ensuring greater water efficiency without compromising experience.

METHVEN Airstream™

Start your bright and bold bathroom transformation with the Black Krome collection, which integrates functionality with form. The Black Krome range features Airstream™ shower spray, which mixes air with water to create a softer, voluminous shower experience.

Finish the look with the matte black Kaha concealed thermostatic mixer valve, which has separate temperature and flow adjustment controls so you can fine-tune your shower experience.

Zesty

There has been a move away from chrome towards statement shower finishes, such as rose gold and copper, but the latest trend to watch out for is matte black. A shower head in a matte black finish will create a stunning look in any bathroom.

Go bright and bold with your bathroom interiors by pairing a black shower with vibrant oranges and zesty yellows, which have been revealed as the colours set to dominate our homes. Whether it be through statement tiles or striking accessories, adding a black colour will lift the whole room.

Bright & Bold

“BLACK TAPS CONTINUE TO BE REALLY BIG IN BATHROOMS. THEY FEEL MODERN AND EDGY. THE METHVEN BASIN MIXER GAVE THE FINISH THAT YOU WOULD EXPECT TO FIND IN A BOUTIQUE HOTEL ROOM. IT IS EASY TO USE, AND VERY ON TREND”

METHVEN
Satinjet®

Water in Motion

We know everyone has their own idea of the perfect shower. Whilst some prefer a cold morning shower to wake them up for the day ahead, others love nothing more than a warm relaxing shower to wind down after a hectic day.

The Kaha and Kiri collections feature our patented Satinjet® technology. Unlike conventional showers Satinjet® uses twin-jets to create optimum water droplet size and pressure, producing over **300,000 droplets** per second for an immersive experience.

Kaha – slide the button to switch easily between Satinjet body shower or massage

Lead Free Eco Brass®
Cushion Close

Voilà!

Our extensive collection of beautifully designed, award-winning taps has something to complement all interiors, whether that is timeless elegance, contemporary geometric shapes or minimalist compact designs. We pride ourselves on attention to detail so look out for our cushion close mixers, slim stream aerators and if you are working with a small space then the Kaha mono basin mixer, featuring a swivel base is the ideal choice.

Leading the way in bathroom innovation, our Aio and Surface taps are made from Eco Brass – a revolutionary high quality material that helps preserve water quality for bathing and consumption. The innovation doesn't end there; our bath shower mixers come complete with Aurajet® and Satinjet® showering technology.
