# A GUIDE TO CROYDEX TOILET SEATS

The Croydex motto is to 'Think Bathrooms' which embodies all of the work that we do to understand consumer needs and provide top quality products. The collection includes innovative features, various designs and finishes along with quality assured markers to ensure there is a seat suitable for any home. The Flexi-Fix and Sit Tight ranges further represent the importance that is placed on providing pioneering solutions.

Wooden seats are available in a selection of finishes, each of which provide a timeless look and feel. All wood is FSC (Forest Stewardship Council) and RFA (Rainforest Alliance) approved and feature an anti-bacterial treatment guaranteeing the surface will remain as good as new for years to come. If you would prefer a plastic option the choice of either resilient polypropylene or durable thermoset offer sturdy solutions. There is no need to worry about discolouring either as the anti-bacterial treatment will keep all seats fresh.

All features are clearly represented via the below icons -

## Flexi Fix

Always fits, never slips.  
Easy installation.

## Anti-Bacterial

Protects against:

Odours      E-Coli  
Staining    Listeria  
                 MRSA  
                 Salmonella

## Soft Close

Slowly and quietly closes the toilet seat eliminating slamming and trapped fingers, especially where small children have access.

## Quick Release

Slowly and quietly closes the toilet seat eliminating slamming and trapped fingers, especially where small children have access.

## FSC®

Any item that includes this logo in its description includes wood from well managed forests and other controlled sources certified by the Forest Stewardship Council®. By buying products with the FSC label you are supporting the growth of responsible forest management worldwide. The mark of responsible forestry.

## Rainforest Alliance Certified™

The Rainforest Alliance is an international nonprofit conservation organisation that certifies forestry operations, ensuring that they meet rigorous standards for the conservation of natural resources and the rights and welfare of workers and local communities.

ALWAYS FITS  
NEVER SLIPS

## FLEXIBLE FIT

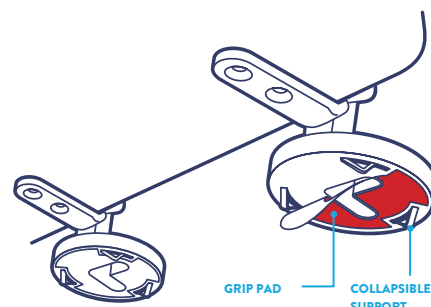

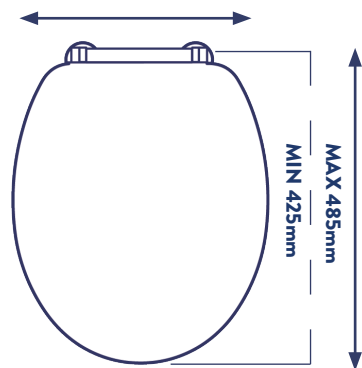

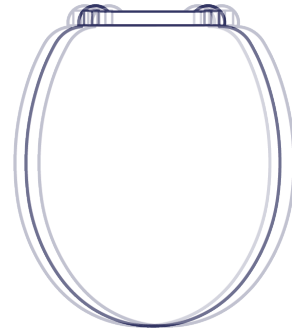

Flexi-Fix seats are the answer to the common issue of seats becoming loose over time. The innovative grip pad technology and pioneering patented 'v' plate hinges provide maximum adjustment to fit the fixing holes of any standard toilet making the seats easy to fix, suitable for a wide range of toilet pans and, most importantly, completely secure.

## ADJUSTABLE FIT

Fitting a Flexi-Fix seat could not be easier. The seats fit toilet pans with fixing hole centres from 110mm to 200mm – far greater than the 145mm to 165mm specified in the European Standard EN33. The 60cm forward and backward adjustability range ensures the seat can be fitted to the correct final position all whilst the collapsible supports hold the hinges away from the pan.

## LOCKABLE FIT

Once the self-adhesive pad backing has been removed and the position finalised, the seat can be fixed into place by applying a little pressure. The supports collapse and the high strength self-adhesive pads grip the toilet pan for a secure fit which will not come loose or slip. As the grip pad technology is a pressure sensitive adhesive, it is easy to re-position the hinges during initial installation if slight adjustment to the selected position is required. Finally use the top or bottom fixings supplied to secure in place.

# A GUIDE TO FLEXI-FIX

Fitting a Flexi-Fix seat could not be easier. The seats fit toilet pans with fixing hole centres from 110mm to 200mm – far greater than the 145mm to 165mm specified in the European Standard EN33. 600mm forward and backward adjustability ensures the seat can be adjusted to the correct final position all whilst the collapsible supports hold the hinges away from the pan.

Once the self-adhesive pad backing has been removed and the position finalised the seat can be fixed into place by applying a little pressure. The supports collapse and the high strength self-adhesive pads grip the toilet pan for a secure fit which will not come loose or slip. As the grip pad technology is a pressure sensitive adhesive, it is easy to re-position the hinges during initial installation if fine adjustment to the selected position is required. Finally use the top or bottom fixings supplied to secure in place.

# A GUIDE TO SIT TIGHT

Fitting a Sit Tight seat is quick and easy for every type of toilet pan. The innovative hinges feature collapsible supports that hold the seat away from the pan whilst it is being positioned. This allows the seat to be in the correct placement before being secured. Once pressure is applied, pads beneath the hinges grip the toilet pan so there is 'no more movement'. The white plastic hinge covers provide a clean, polished look ensuring a high quality finish to any bathroom.

All Sit Tight seats can be fitted in three easy to follow steps.

FOR VIDEO DEMOS  
SEARCH SIT TIGHT IN YOUR  
INTERNET BROWSER OR  
VISIT CROYDEX.COM

*PEEL - Assemble the hinge with the bolt in place and peel off the protective film from the grip pad.*

*FIX - Align the hinges to the toilet pan and push hinges in place.*

*CLIP - Slide the nut to the highest position possible and twist to lock the seat in place.*

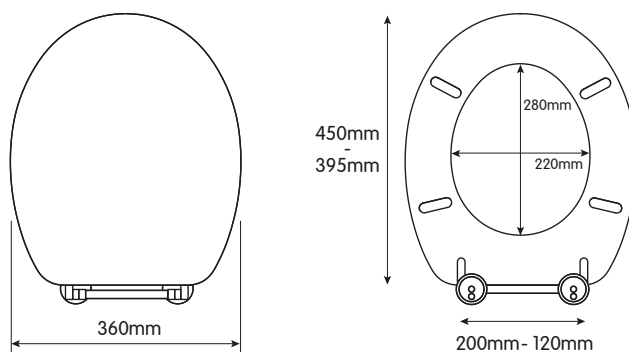

# SIT-TIGHT TOILET SEATS COLLECTION

The Sit Tight solution offers great value for money as all seats have a high quality finish and will last for years to come. These seats are very resilient thanks to the treated surfaces and sturdy hinge technology. The toilet seats also fit most standard toilets making them ideal for any bathroom.

# SIT-TIGHT

SIT TIGHT SEATS ARE QUICK AND SIMPLE TO FIT.
