Shower Handsets NEW

With a variety of shower handsets, shower sets, shower hoses, riser rails and shower accessories to choose from, there's something for everyone in the new range from Croydex. With all handsets and shower sets including the optional eco feature and included in the Water Label scheme, these products are not only great value for money but save water too.

All products are packaged so that they are easy to see inside the pack before you buy. Many of the products are available in either White or Chrome to suit most bathroom projects.

Water Label and Water Efficient Handsets

The European Water Label is a voluntary scheme and is open to all companies who manufacture or sell products in the UK that meet the criteria. The Bathroom Manufacturer's Association (BMA), the lead trade association for manufacturers of products in the UK is the facilitator of this scheme.

Croydex have been actively selling water efficient shower accessories for many years and have now been recognised by the BMA with several of its water efficient shower handsets now included in the Water Label.

Offering the latest water-saving technology, each of the handsets included in the Water Label feature Croydex's innovative Eco Function. The optional water saving device reduces water usage by up to 50% compared to flow rates through the hand shower without it fitted. Simple to fit, the device is inserted into the handset or showerhead during installation and can be removed as and when required. It can be used in conjunction with most systems, excluding electric showers.

Modern bathroom fittings are designed to be more water efficient without compromising performance.

Water efficient products will help your customers save water and save money on their energy bills because they are not heating so much water.

Look for the Water Label on featured products.

See page 7 for more information.

What is the Water Label?

The Water Label enables customers across Europe to easily compare the amount of water different products use and make informed decisions that will save them water and money.

Type of measurement

Actual capacity or performance of the manufacturers product

Performance bands

Major DIY retailers, builders and plumbers' merchants and manufacturers of bathroom products are committed to using the Water Label for all bathroom fittings.

Thousands of bathroom products are registered with the European Water Label. Once registered, products are given a Water Label rating based on the manufacturers' product information.

You can look online to search for products already registered with the Water Label at

www.europeanwaterlabel.eu and click on 'Find a Product'.
